WEIGH AND CONSIDER. icine which makes cures at home where the parties can be found. The great Cough and Consumptive remedy.

Reader! have you a cough, which you are neglecting under the idea that it is only a comneglecting under the idea that it is only a common cold, and that it will soon "wear itself 150 BAGS, strictly Prime; out ?" Let a friend tell you, in all kindness, what will soon be the probable result. In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with quent sharp darting pains. Then a dry hacking cough will set in, and when you raise anything it will be a thick and yellowish, or white frothy matter, streaked perhaps with blood. If you will take no medicine, these unpleasant symptoms will increase, and you will soon have bectic fever, cold chills, night sweats, copious expectoration, and then great prostration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly consumption did its work, and hurried you away. Friend! have you no cause to be alarmed? In the above sketch you may see in a glass, how every case of consumption progresses, with more or less rapidity, to a fatal termination.— Of all the thousands and millions whom this great Destroyer has gathered to the tomb, every single care began with a cold! If this had of been attended to, all might have been well; but, being neglected, under the fatal delusion that it would "wear itself off," it transferred its that it would "wear itself off," it transferred its deadly action to the substance of the Lungs, exciting there the formation of tubercles.—Another, and another cold added fuel to the thame, until these tubercles becaute soften and flame, until these tubercles began to soften and suppurate, leaving, by their ulceration, great cavities in the Lungs, At this crisis the dis-ease is 'ery difficult of cure, and oftentimes sets

at defiance all human means. In the latter, or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more of omfortable, and prolong his life, and it is therefore worthy of a trial-but in its incipient or forming periods, Consumption is as curable as any other disease, and Dr. Hall's Balsam for the Lungs, if taken at this time, will cure it as surely as it is taken! We carnestly exhort all who have a cough, or are subject to colds, to keep the medicine by them, and whenever you take cold, eradicate it thoroughly, and at ouce, by this powerfully healing compound, and leave your Lungs, uninjured, to carry you in full at No. 1, Buckeye Block. vigor to a good old age.

" Scott's Weekly," one of the best Literary pa-

pers published, said, Aug. 25...
"Dr. Hoofland's German Bitters, manufactured by Dr. Juckson, are now recommended by some of the most prominent members of the fa-culty as an article of much efficacy in cases of female weakness. As such is the case we would save themselves much sickness. Persons of debilitated constitutions will find these Bitters

He has also just received; and is now advantageous to their health, as we know from experience the salutary effect they have upon weak systems." MORE EVIDENCE.

The Hon. C. D. Hineline, Mayor of the city of Camden N. J., says : "Hoofland's German Bitters."—We have seen many flattering potices of this medicine, and the source from which they came induced us to found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state or repose, making sleep refreshing.

"If this medicine was more generally used, we are satisfied there would be less sickness, as

from the stomach, liver, and percoussystem, the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can lild defiance to enklamics generally produce such evidences of merit."
